Since 2018 the V8 HOTEL Classic has a really big brother at the Charles-Lindbergh-Platz: the V8 HOTEL Region Stuttgart.

The 4-star superior hotel impresses with its architecture and especially the automobile themed rooms enjoy great popularity with our guests.

On an area of around 6,000 square meters, it is created for lovers who want to experience automotive passion day and night.

On the ground floor, where the lobby, the restaurant for breakfast and dinner, the V8-BAR and sales area for high-quality vintage cars and high-end sports cars are located, automotive treasures are placed in the foreground.

The atrium combines underground parking, lobby and the gallery on the first level.

There you will find our conference and event area with three flexibly combinable rooms, event areas and lounges.

On the next four floors are the design rooms, apartments and themed rooms and in the 6th floor the wellness and fitness area.

Enjoy the view from the panoramic sauna and the cooling off on the terrace.

V8 HOTEL Classic - the first V8 Hotel

A house with history - in the twenties and thirties of the last century the airport hotel of the former Württemberg state airport.

2008/2009 over the course of the emergence of the MOTORWORLD Region Stuttgart, it was extensively restored in the style of classic modernism and impresses with its historic flair.

Visible from afar is the former airport tower, which includes today the exclusive V12 Mercedes Suite over four floors with its own roof terrace.
